

2021 Cherries & Rainbows® Red Wine Blend

Vin de France

Winemaker Notes

Unconventional and lighthearted, Cherries & Rainbows hails from France. This wine is has no sulfur (sans soufre in French) and is ideal for the modern wine drinker in search of sustainably farmed, small lot options. Emphasizing investment in high-quality raw materials and employing minimal intervention in the vineyard and cellar, Cherries & Rainbows embodies our winemaking philosophy. The organic and biodynamic grapes are grown on clay and limestone soil, and aged in stainless steel and concrete. The ripeness and inherent nature of each grape comes through in the final product, with the Merlot showing dark, round fruit and the Syrah contributing spice and earth. If you're interested in jumping in on the burgeoning no sulfur wine movement, Cherries & Rainbows is the perfect place to start.
