

2022 Summer Water® Rosé 187ml

Central Coast, California, USA

Winemaker Notes

"Good rosé wine is hard to make. It requires hitting precise picking windows in the vineyard and precise techniques in the winery to end up with the proper color as well as fruit and acid balance. I feel that it's important to go the extra mile and put the time and energy into managing all these aspects; that is how you get a great rosé. We manage each smaller component on an individual basis and as a result we are able to create a blend from many small, well-managed lots. This attention to detail shows through Summer Water." – *Ryan Zotovich, Head Winemaker*

Winemaking

Grenache based, Direct press, Fermented in stainless steel, No sugar

Viticulture

Soil: Sandy, rocky, loam
Age of Vine: 10-15 years
Farming: Sustainable

Tasting Notes

Pink Grapefruit
Lime Zest
Strawberry
Guava

Food Pairings

Cheese
Sushi
Salad
Fries

Brand Statement

Summer never ends with Summer Water Rosé. This perennial favorite is delightfully crisp, lighthearted, and destined for a good time. The grapes for this wine were picked early in the season to achieve a natural acidity that's ideal for warm-weather drinking. To ensure as little extraction from the skins as possible, we used the direct press method, retaining the delicate fruit aromas and pale color rosé is known for. The result is light, aromatic, and dry - with notes of pink grapefruit, watermelon, and lime zest. Summer-friendly fare like shellfish, ceviche, and salads will pair nicely or just drink it chilled with the ones you love.

SUMMER WATER.
