

2022 Summer Water® Rosé 187ml

Central Coast, California, USA

Body: Light

Alcohol: 12.5%

Summer Water has great minerality, acidity and freshness along with very intense fruit aromas.

The wine is a pale pink salmon almost bordering on opaque, which is how we like our rosé. We go to great lengths to ensure we get the proper color on our rosé. This means we only use grapes that are well suited for rosé. These varietals provide the texture and flavor, and the right balance of acidity and minerality. All lots are picked for the optimum flavor, alcohol, and acid balance and then they are transported to the winery where we load them direct to press and we press them off immediately.

Varietal
