

2022 Summer Water® Rosé 750ml

Central Coast, California, USA

Body: Light

Alcohol: 12.5%

Due to the cooler growing season we had in the 2022 vintage, this year's Summer Water has great minerality, acidity and freshness along with very intense fruit aromas.

The wine is a pale pink salmon color almost bordering on opaque, which is how we like our rosé. We go to great lengths to ensure we get the proper color on our rosé. This means we only use grapes that are well suited for rosé: Grenache. This varietal provides the texture and flavor, and the right balance of acidity and minerality. All lots are picked for the optimum flavor, alcohol, and acid balance.
